

NATIONAL DAY CELEBRATION,
OCTOBER 10, 2023

REPUBLIC OF CHINA
TAIWAN

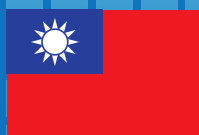

Island of Diversity

On this National Day we celebrate that Taiwan's post-pandemic opening to visitors from across the world is well underway with over 3 million guests in the first seven months of the year. Our warm hospitality, great food and gorgeous scenery are just the start of an adventure where outdoor activities are spiced with dynamic urban and traditional culture for a rich mosaic of enjoyment.

Sustainable Innovation

National Day celebrates our prosperity. We use cutting-edge technology and resources well under the Six Core Strategic Industries initiative in line with U.N. Sustainable Development Goals. Commerce and trade are all thriving, as despite the pandemic, our economic growth in 2022 was 2.45%. Our renewable energy source power generation volume, including water, wind and solar, continues to grow and is poised to reach 15.5 percent by 2025.

Democratic Solidarity

Throughout the year the people of Taiwan enjoy freedom and human rights, and on National Day we celebrate the founding of our nation and take pride in its vibrant democracy. The holiday is also a time to reaffirm commitments with regional and international partners to support peace, uphold stability and share prosperity.
